and NSD File No. L-00-72.

Dear FCC:

Everything keeps going up except my salary!

Thank you for your prompt attention to this matter. Please provide a written
response indicating the status/resolution of this matter.

Very truly yours,

Rick Prochaska

CC: FCC Subcommittee Members
wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how
they use their wireless phone, especially for a low-volume user that relies on
wireless service for safety and security, not interstate calls. The current
policy is fair, based on interstate usage, and should be left alone. Please do
not penalize us. Keep this fair.

Nothing is taxed more than phone service. Half of every regular phone bill is
taxes! I use my wireless phone for security only. Most months I don't even use
it. So I would be taxed for something I didn't even use if the \$1.00 per month
is added. It is more important to try and reduce the taxes on phones not
looking for ways to increase.

Thanks for your consideration.

Thank you for your prompt attention to this matter. Please provide a written
response indicating the status/resolution of this matter.

Very truly yours,

Les Pinkerton
